

Marino G. Pieterse, publisher and editor
speaker at worldwide mining events

Goldletter International, based in Amsterdam, the Netherlands, is a premier independent information source on investing in the worldwide gold, uranium and REE sector.

Goldletter International is particularly featuring opportunities in emerging gold regions in the world, including China, Central-Asia, China, Latin-America and West-Africa, as well as in Canada, the US and Australia.

Special Region Reports include overviews of exploration/development companies active in these regions, and reports on individual companies featured as a **Special Situation**.

Goldletter International commenced with covering the Uranium Industry in January 2005 with the separate publication of **Uraniumletter International** in October 2005. Thanks to its distinct approach, **Uraniumletter International** has become one of the world's premier sources for investing in the world-wide uranium resource industry.

In September 2010, **Goldletter International** started covering the rare earth metals sector separately with the publication of **REE Letter International**.

Goldletter European Forums and **Uraniumletter European Forums** inform and advise the professional financial community in Europe about attractive investment opportunities in worldwide gold, uranium and rare earths mining.

Goldletter International, **Uraniumletter International** and **REE Letter International** are **Media Partners** to major world-wide mining events, including:
