Goldletter International, based in Amsterdam, the Netherlands, is a premier independent information source on investing in the worldwide gold and uranium sector.

Goldletter International is particularly featuring emerging gold regions in the world, including Russia, Central-Asia, China, Mongolia, Latin-America and West-Africa, as well as Canada and the US.

Special Region Reports include overviews of exploration/development companies active in these regions, and reports on individual companies featured as a **Special Situation**.

Specific attention is also paid to the emerging rare earths and future metals sector.

Goldletter International commenced with covering the Uranium Industry in January 2005 and started the separate publication of **Uraniumletter International** in October 2005.

Thanks to its distinct approach, like Goldletter International, **Uraniumletter International** has become one of the world's premier sources for investing in the world-wide uranium resource industry.

Goldletter European Forums and **Uraniumletter European Forums** inform the professional financial community in Europe about attractive investment opportunities in worldwide gold and uranium mining.

Goldletter International and **Uraniumletter International** are **Media Partners** to major world-wide mining events, including:
